Instructions to install and activate your Visible Body app(s):

1. Connect your mobile device to your institution’s WiFi network.
2. Using the device’s browser, go to http://ovid.visiblebody.com/mobile/. When the page loads you will see the Visible Body apps associated with the IP range of your institution*.
3. Install the app(s) of your choice, and when you start the app you will automatically receive a token valid for 90 days. Every time you use the app on your institution’s WiFi network, the token will be reset to 90 days.

*If no apps appear, or if you are prompted for a username and password after installing an app, follow the instructions below.

Instructions for Off-campus users:

1. Via your institutional IP range, or via your institution’s proxy**, go to http://ovid.visiblebody.com/mobile/ and click on the ‘Off Campus’ link. You do no need your mobile device for this!
2. Choose an app from the list by clicking on it. **
3. Submit your email address, and you will be asked for a verification code.
4. You will receive an email with the verification code immediately.
5. Enter the verification code received by email and click Submit.
6. You will now receive your user credentials both on-screen as well as by email.
7. On your mobile device, click on the app link and follow the instructions.

** If you are not sure of your institution’s proxy address, or when you don’t see any apps appear, please contact your librarian or Ovid support for assistance.
